

The familiar world collapsed overnight. The Earth and all living beings passed through the Game Transformation. Disasters occurred throughout the Earth. Materials changed their properties, new species of flora and fauna appeared. There was no more electricity. The Game took place of the previous civilization. And this game involved many other worlds.

However, everything cannot go according to the aliens' plan. They joined the Earth to the Game World and, in fact, turned it into a huge dungeon. But they could not hold the advantage of the first gaming action! An ordinary young guy got the bonus, not the leader of the invaders.

How can he manage the situation? What player will become his ally? Who will be his enemy? Dare they rebel against the all-powerful invaders, regain their land and even create a new world?

If you want to know the answers, read a new book in the genre of real RPG!
