

Speaking of the USB flash drive presented by Gun God, Wang Teng suddenly remembered the ghost icon he gave to him.

Um ... tentatively called a map.

Wang Teng came to Mind suddenly and started searching online according to the topography of the map.

Ran goose ...

After more than half an hour, he found that he couldn't find the right place at all and was in vain.

Damn it, am I fooled again?

Hey ... why should I use this nickname? ?

Wang Teng desperately shook the head.

Forget it, I'm more upset with a mental patient!

"I don't know how much I can earn from this time Different World trip?" Wang Teng thought in silence.

Under the Fire God Gun 's strikes, his shield was destroyed, and the battle suit was broken, so it must not be used anymore.

That's up to 10000000, and it hurts to think about it.

However, it turns out that Battle Shield and Battle Suit can indeed save lives at critical moments.

You can only buy it if it is broken.

"It seems that the money is not enough, so tomorrow they will sell the materials before Captain buys them."

Wang Teng counted the small amount of money in his pocket, the previous compensation of 100010000 from Zhao Gangbao, plus 3 million for the sale of Volcanic Salamander.

It seems a lot, but Wang Teng wants to buy a little better.

Life is important!

There is also Meteor Awl, which must be created earlier. How can Mental Telekinesis be so sharp in killing move, because the weapon is not in place and it will be greatly reduced.

"Are you there?" Wang Teng immediately contacted Master Lu.

"I'm close, I have studied the drawings of Meteor Awl." A smiley expression followed.

"Can it be done?" Wang Teng asked.

"No!"

"..."

Wang Teng felt the uncontrollable violent bruise on his forehead.

Can't you laugh ass! ! !

"However, I asked my Senior Brother to look at it together, and he said a little. (* ^ ▽ ^ *)" followed by an expression bag that praised me.

"... Can I finish in one sentence next time."

"Okay, kiss φ (& ω & *)"

Wang Teng felt so powerless.

"Then how can I give you the material?"

"It's best to deliver such important materials in person."

Wang Teng eyebrow raised.

Want to face?

It's nothing. Master Lu, as the official partner of Extreme Star Dojo, is still trustworthy.

"Then how do I find you?"

"No need to find me, please find me Senior Brother, he is helping someone to refine the device at Eastern Sea now, I will give you his address and phone number, please contact him directly."

"Row."

A phone number was sent over there.

Afterwards, Wang Teng dialed the number and called, and made an appointment with him to visit him tomorrow afternoon.

.....

The next day.

At 9 a.m., Wang Teng came to Extreme Star Dojo to meet Lin Zhan and the others.

"coming!"

Lin Zhan went straight: "We go to the third floor, the third floor is the Star Beast material trading area."

Wang Teng nodded, everyone came to the third floor and stopped along the corridor at the door of a room.

Trade Room!

There are 3 words written on the house number.

Entering the room, there is a lot of space inside, a dozen staff members are sorting various Star Beast materials on the open space on the right side of the room, a busy scene.

And on the side of the door, there was a row of tables, and a few people were sitting behind the table.

At this time, there are 2 Martial Artist teams selling materials there, and bargaining with the Trader behind the table.

"We wait." Lin Zhan said.

Wang Teng and the others nodded.

After a while, one of the two Martial Artist teams completed the transaction and turned around with a satisfactory expression to leave.

"Well, Lin Zhan, I heard that you are out with a newcomer, how come you come back so quickly?" The leader of the team was a middle-aged man, who saw Lin Zhan and the others stunned slightly and said.

"There was something unexpected, so I can only come back first." Lin Zhan said with a bitter smile.

"Why, the newcomer is not honest? What's the matter?" The middle-aged man frowns saying: "I will say, what newcomer to bring, or what Martial Examination Champion, this is definitely a sting, it is a big team trouble."

Wang Teng: "..."

Inexplicably shot!

Wang Teng said that he was very innocent and looked at the man in disgust.

I recruited you to provoke you, so black me!

"Old Zhao, you may have misunderstood this time. Without this newcomer, we almost couldn't come back this time." Lin War General Wang Teng pulled out and said, "Look, Martial Examination Champion, One Star Top Level Martial Artist, unlike other rookies who will lag behind, this guy is strong enough, of course, the most important thing is that it is Yin enough! "

-_- ||

Wang Teng was still very happy.

Lin Zhan suddenly came to such a sentence, unable to take precautions!

It's overcast!

Come on, where is Laozi? ?

Laozi dignified is being a man, doing things in a down-to-earth manner, you say I am yin!

Needless to say, cut off!

Since then, no longer a friend!

The middle-aged man looked at Wang Teng in amazement, and his teammates looked at him curiously, "Is it really so yummy as you said?"

"Must." Lin Zhan nodded in a serious way.

"..." Wang Teng's mouth twitched, almost reaching the edge of the explosion.

You are enough!

It 's not over yet, right?

"Good boy, Lin Zhan praised a person this way, for the first time." The middle-aged man gave a thumbs up.

"That being said, what did you encounter?"

"Don't mention, I met Four Stars level Star Beast."

middle-aged man suck in a cold breath of air: "You are really bad luck."

"I have listened to your words no less than 5 times since I came back. The matter of Martial Artist, whatever bad luck or bad luck is chosen by myself." Lin Zhan said.

"Don't tell you, I will sell the materials."

"It's good to see you like this, let me see it." Middle-aged man said with a smile.

"The loss is so great, can there be no gain?" Lin Zhan came to the trading table and poured out the material.

"Oh, this is Horned Hou's horn, and Star Core!" Middle-aged man exclaimed.

Trader is also surprised at the heads, and then said: "Is all these for sale?"

"Good! Take a look."

Trader nodded, inventory items, check the quality, and then estimate.

"Horned Hou's claws 70010000, horn 120010000, Star Core 50 million!"

"Storm Wolf has 60010000 claws."

"Earth Scaled Pig fangs 10010000, Scale Armor 20010000, Star Core 11 million!"

.....

"Are there any doubts about these prices?" Trader asked after estimating the prices.

"Horned Hou's Star Core is too low, but it is the Star Beast Star Core of Three Stars Top Level, at least 70 million." Lin Zhan shook his head.

"50 million is already very high, it's just three Stars Top Level Star Beast Star Core. We only gave this price. You can't necessarily have this price when you sell it outside." Trader said.

"No, no, in order to hunt this Horned Hou, our team suffered heavy losses." Lin Zhan shook his head again and again.

"Well, it's Extreme Star Dojo Inner Member, I will give you 600010000." Trader hesitated.

"Higher!"

"This is the highest price I can give!"

Lin Zhan and Liu Yan and the others glanced at each other, it seemed that they lost a 100000000 bite, nodded and said: "Ai, okay, at this price, all of you Traders are like Vampire, 600010000 is definitely not the limit . "

"Brother, if you eat meat, you have to reserve some soup for us." Trader didn't know whether to cry or laugh.

Lin Zhan snorted.

After completing the transaction, everyone walked out of the Trade Room and began to split the accounts.

"It was originally me 3, Liu Yan, Yang Fei, Yan Jinming, Yan Jinyue 1.5 each, Wang Teng 1. Now something happened to Yang Fei, I decided to take only 1%, the remaining 2%, of which 1.5% He, another 0.5%, in order to thank Wang Teng for saving us, just give Wang Teng. "Lin Zhan said.

"Captain, you can't leave it all by yourself," Liu Yan said.

"Yes, I think it's simply re-divided. Yang Fei gets 4%, Wang Teng gets 2%, each of us gets 1%." Yan Jinming said.

"I don't need so much." Wang Teng accepted some sorry, after all, he also got a space ring from the young man, and Fire God Gun Lin Zhan and the others didn't need it, just gave him directly.

"Yang Fei takes 5%. I can get 1 achievement just like you. After all, I have already taken advantage of it."

"Don't argue anymore, just click like this." Lin Zhan finally clapped.

Liu Yan and the others said nothing more.

Due to the decision just made, their favorability with Wang Teng has once again increased a lot, and he more agrees with his teammate.

"I went back and checked last night. Three days later, there was an Auction, which is one of the top ten Auction Houses in the world. [Bond] Auction House organized by Auction House.

When the time comes, there will be a lot of great figure coming, and it is also our good luck. If we encounter it, we will give them the Star Bone for auction. We can definitely make a good price. "

Lin Zhan said with a smile.

"Bond Auction House, still an Important auction! This is not a few times in a few years." Yan Jinming was surprised.

"So we are good luck," Lin Zhan said.

"That many great figure, will it be targeted by people." Wang Teng frowns saying.

"This can be absolutely assured. The identity of the auction item Owner is absolutely confidential.

After so many years, they have never lost their trust, otherwise how can they become the top ten Auction House." Lin Zhan said.

"That's true, even some bidders who don't want to show up will hide their identities, and have never heard of any exposure." Liu Yan echoed.

"Furthermore, this Star Bone seems to us to be a high price. For those great figures, it is nothing but drizzle." Yan Jinming said.

"The same is said, the world of the rich is not something we can imagine." Liu Yan said with emotion.

"..." Wang Teng suddenly felt that he might be a poor man.

So the rich 2nd generation and so on, don't take it out for 10000000 in the future, shame!

"That's it. Now take Star Bone, sign the contract, and wait only 3 days for auction." Lin Zhan said.

So several people rushed to Bond Auction House. As soon as the manager of Auction House heard that someone was carrying Star Bone to the door, they quickly greeted them and took them to a Conference Hall, poured tea, and Yan Yue said:

"Everyone, want to auction Star Bone?"

Lin Zhan didn't say much, just take out the Star Bone.

"Go and ask Old Xu to come over." The Auction House manager eyes flashed and said quickly to the staff next to him.

Not long afterwards, an old man quickly walked into the Conference Hall: "Where is Star Bone? Show me quickly."

.....

Half an hour later, a few people walked out of Auction House, and they were in a good mood.

Their Star Bone ranked seventh from the bottom. This position shows the importance that Auction House attaches to Star Bone, and the price is stable.
