$$\square\square\square\square\square \cdot \sim \square\square\square\square$$

A horizontal number line with arrows at both ends. It is marked with numbers from 0 to 20 in increments of 1. Below the line, there are two groups of empty boxes for writing digits: one group of six boxes under the numbers 0-5, and another group of six boxes under the numbers 10-15.

Diagram illustrating a 256-bit block cipher structure. The input is a 256-bit block, represented by 32 small boxes. This block is split into two 128-bit halves. The left half (16 boxes) is XORed with a 128-bit round function output (16 boxes). The right half (16 boxes) is XORed with a 128-bit round function output (16 boxes). The result is then split into two 128-bit halves again.
